

FilmGuard™

Designed to protect unprocessed film from harmful x-rays during airport security and customs checks. Lead-lined bags also protect other sensitive media from the low-dosage x-ray machines used in airports around the world. Without FilmGuard, unprocessed film can become fogged or streaked. Use FilmGuard in carry-on luggage, because checked luggage is exposed to high-dosage x-rays that FilmGuard cannot protect against.

- Triple-layer construction also keeps dust and moisture out: lead-impregnated vinyl sheet sandwiched between an outer shell of Ballistic Nylon and interior lining of smooth Nylon.
- Available in three sizes, in black only.

Mini FilmGuard

- Holds nine 35mm film cassettes or a small camera.
- Dimensions: 5.25" x 8"
13 x 20 cm

Small FilmGuard

- Holds 15 rolls of 35mm or small camera with a few rolls.
- Dimensions: 9.5" x 8"
24 x 20 cm

Large FilmGuard

- Holds 35 rolls of 35mm, or three 50-sheet boxes of 4" x 5" film, or small camera with a few rolls.
- Dimensions: 10.5" x 12"
27 x 31 cm
